### Event Overview

Step into the new season with gardening expert Jane Edmanson. Best known for her long-standing role on ABC's Gardening Australia, Jane has inspired generations of Australians to connect with their gardens and local environment. Come along for a hands-on workshop, hear from the expert herself and learn tried and tested tricks so you can get the most out of your gardens. After the workshop, enjoy complimentary coffee and morning tea while mingling with fellow green thumbs. It's a perfect day to learn something new, get your hands dirty, and connect with the Summerset Cranbourne North community. Contact our sales manager Kay Murdoch to RSVP and secure your place.
